

We recently released our **Stimulus Research Program Solicitation** which requires collaboration among researchers in South Carolina. To facilitate networking and team building, we built the **SC Research Expertise Profiles** tool to provide a uniform but simple platform for research expertise in the state that is available to all. We invite you to participate in populating the database by sharing brief information about you and your work. You may also submit a resume to share. [Click here](#) to complete the short form. To view, search or sort the database, [click here](#).

The [Stimulus Research Program Solicitation](#) page has been expanded with the details and guidelines. We realize you might still have some questions, so we've created a **Frequently Asked Questions** page. We hope this page will assist you as you prepare your Letter of Intent and proposal. [Click here](#) to visit our FAQs page.

If this page doesn't answer your questions, please [contact us](#). We'd be glad to help you out!

Opportunities and Deadlines

- Interested in working in the biotech industry, an entrepreneur seeking to take your ideas and technologies to commercialization, or a faculty member doing biomedical research? Don't want to miss this special series titled, "**From Discovery to Market: Perspectives on the Biotech and Pharma Industry**," featuring Randolph M. Johnson, Ph.D., an industry recognized C-level biotech-pharma R&D and Operations executive with 25+ years of experience in discovering and developing drugs to commercialization with preeminent pharmaceutical and biotechnology companies, including entrepreneurial start-up ventures on **Monday and Tuesday, May 1 and 2**. [Click here](#) to download flyer with more info.
- **SC INBRE [Bioinformatics Pilot Project Program](#)**'s goal is to stimulate interest in the application of genomics and bioinformatics methods by supporting research and student training throughout the SC INBRE and SC Clinical and Translational Research Institute (SCTR) networks. **Applications are due by Monday, May 15.**
- The Department of Energy (DOE) Office of Science Graduate Student Research (SCGSR) program is now accepting applications for the 2017 Solicitation 1. The

SCGSR program provides doctoral dissertation/thesis research opportunities for graduate students at DOE national laboratories and is open to graduate students with Permanent Resident status, in addition to US citizens, who meet all other eligibility requirements. [Click here](#) for detailed information about the program and access to the online application system. **Applications are due by 5 pm on Tuesday, May 16.**

- Do you want to share your research and recent findings with one of the largest communities of underrepresented minorities in science, technology, engineering, and mathematics (STEM)? Submit your abstract for an oral or poster presentation at the [2017 Annual Biomedical Research Conference for Minority Students \(ABRCMS\)](#). Submission deadline: **Friday, September 8. Need funds to attend the conference? [Apply](#)** for the ABRCMS Student Travel Award **by August 25**, to be considered.
